

# EXPLORE THE GLOBAL TRANSPORTATION HUB

## INTRODUCING THE NEXT GENERATION SUPPLY CHAIN

Reducing supply chain costs and meeting customer requirements are key priorities today and in the future.

The GTH is a 1700 acre state-of-the-art transportation and logistics development located west of Regina, Saskatchewan. Strategically positioned within Canada's Asia Pacific Gateway and NASCO Corridor, the GTH enables provincial, national and international companies to connect to global markets through direct road and rail transport services.

The GTH is Saskatchewan's commitment to developing a supply chain, logistics and transportation infrastructure that will support global trade for generations to come. We are providing a new set of services that help you focus on best-in-class delivery, cost and flexibility to meet demanding customer requirements.

Barely three years on the ground and the GTH is already a story of remarkable success. Ahead of schedule and with the support of our growing community of clients, the GTH is drawing the attention and the investment of wholesalers, distributors, transporters and logistics handlers from across North America.

*Looking for ways to accelerate your supply chain's performance and capture a competitive edge?*

*Become a part of the exciting GTH community today.*

EFFICIENT, FAST AND TAILORED

**GTH** GLOBAL  
TRANSPORTATION  
HUB

# OUR VALUE IS DELIVERING THE COMPETITIVE EDGE

## REACH CUSTOMERS

**Centrally located** between the coasts of Canada and along the NASCO Corridor connecting Canada, the United States and Mexico, the GTH is ideally situated for companies requiring **quick turnaround and efficient transportation to markets** across the globe. Use our integrated rail intermodal and highway infrastructure to reach your customers and optimize your network.

## DEVELOP FASTER

**425 acres** of service-ready land is available now for your uniquely customized solution. Our greenfield environment allows you to design what you need from the ground up. The GTH team will connect the right people and information to quickly move you from concept to operations.

## ACCELERATE ROI

The GTH offers a **highly competitive land and long-term operating environment**. Let the province's economic, transportation, workforce, business and innovation climate become your ongoing differentiating advantage.

## INCREASE PRODUCTIVITY

Tailored specifically for supply chain, logistics and transportation operations, the GTH enables high volume and velocity of truck movements. Explore the benefits of our programs for long haul combination vehicles to enhance driver productivity. **Deliver more with less** – less trucks, fuel and emissions – to keep the cost of goods affordable for your customers.

## REDUCE BUSINESS RISK

Supply chain operations depend on **stability, reliability and predictability**. The GTH has a coordinated long-term vision and strategic partnerships aligned to support and evolve the hub, highways and rail services. In consultation with our clients, our services are being designed to meet the needs of 24/7/365 operations.

# OUR PRIORITY IS YOUR SUCCESS

Supply chain leaders partner with the best minds and organizations to deliver results.

The GTH makes it simple for clients to explore, invest, build and operate. As your full service point of contact, the GTH team works to thoroughly understand your business and help customize a solution that will reduce your costs and offer a higher return on investment.

We connect people and information to us and through us to streamline approval processes, facilitate new trade relationships and explore unique synergies with co-locators.

*We offer you an engaged community of knowledge, resources and capabilities to help build a unique competitive advantage.*

*The GTH infrastructure offers leadership in functionality, efficiency and fluidity.*

## OUR PURPOSE IS BUILDING FOR THE FUTURE TODAY

In an environment where goods movements are timed to the minute, execution is everything.

The true greenfield nature of the GTH presents unlimited potential to design the infrastructure specific to the needs of transportation and logistics operations. From our four lane roadways through to our application of sustainability practices, the GTH is creating standards that are service-driven and deliver long-term business outcomes.

Whether you lease or purchase property within the GTH, our team will work with you to select the optimum location and property design that is customized for your operation.

**EFFICIENT, FAST AND TAILORED**

# LOCATION, LOCATION, LOGISTICS!

## Change Your Game

Reach 60 million consumers within a day's drive of the GTH and within two days, reach over 270 million.
